

BACKUP and UPDATE BIOS.

Uncompress the download zip file and read the note.txt message.

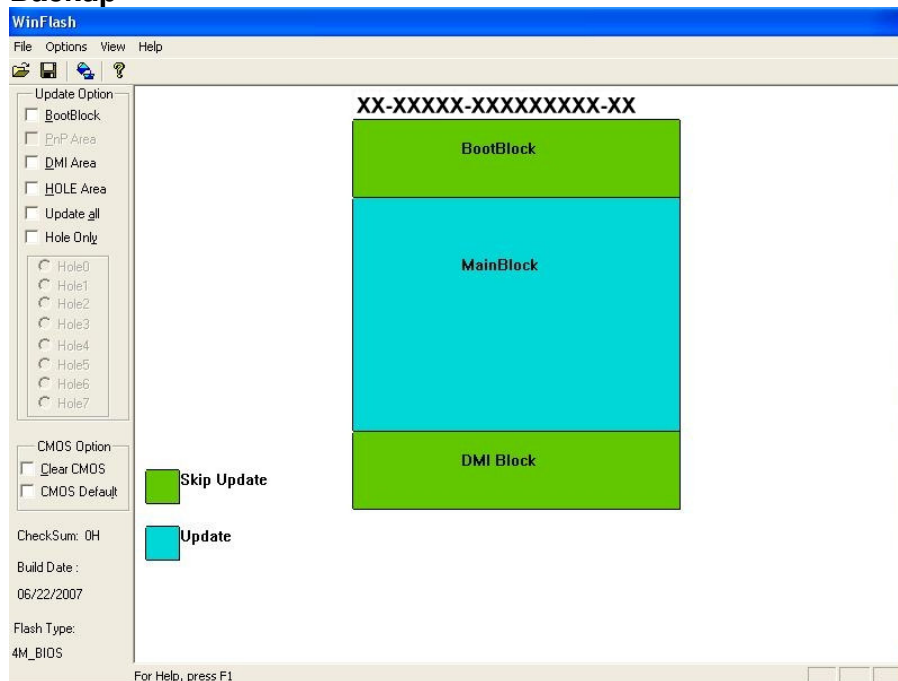

The download file may include more than one BIOS. Follow the instruction from the note.txt, then decide the correct BIOS binary file (xxxxxxx.bin).

Before update the BIOS, please make sure the system is running at normal system clock.

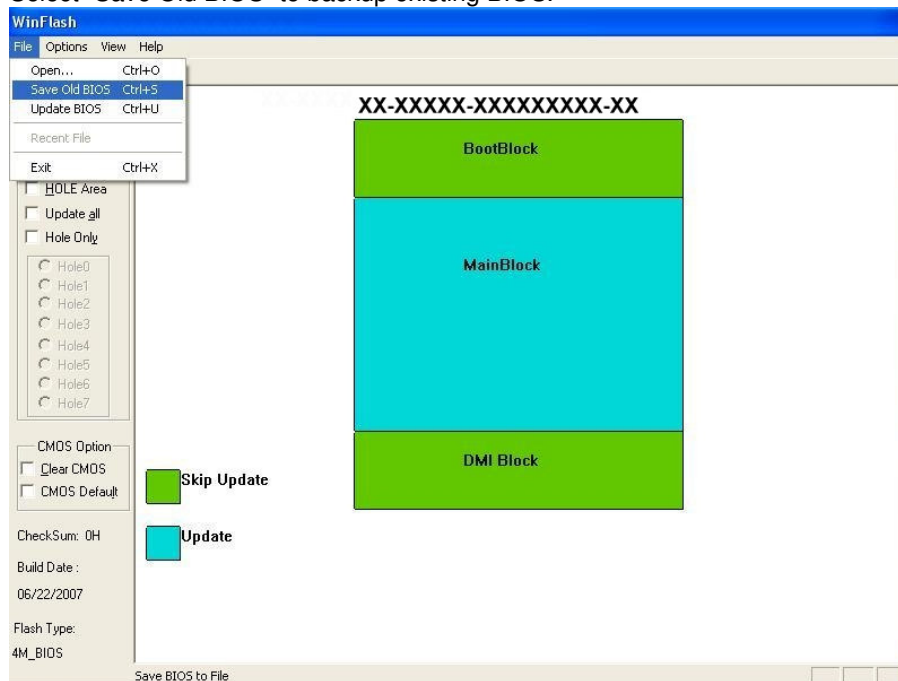

Turn off the Anti-virus, screen saver and other pre-load programs. Any program pop up may interrupt the update process.

Execute the winflash.exe.

Backup

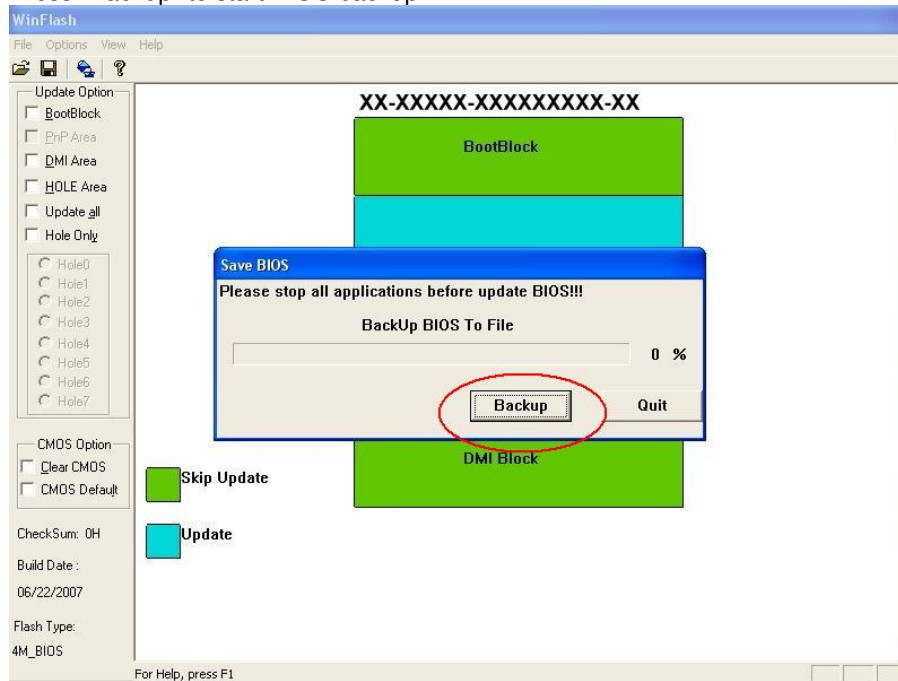

Select "Save Old BIOS" to backup existing BIOS.

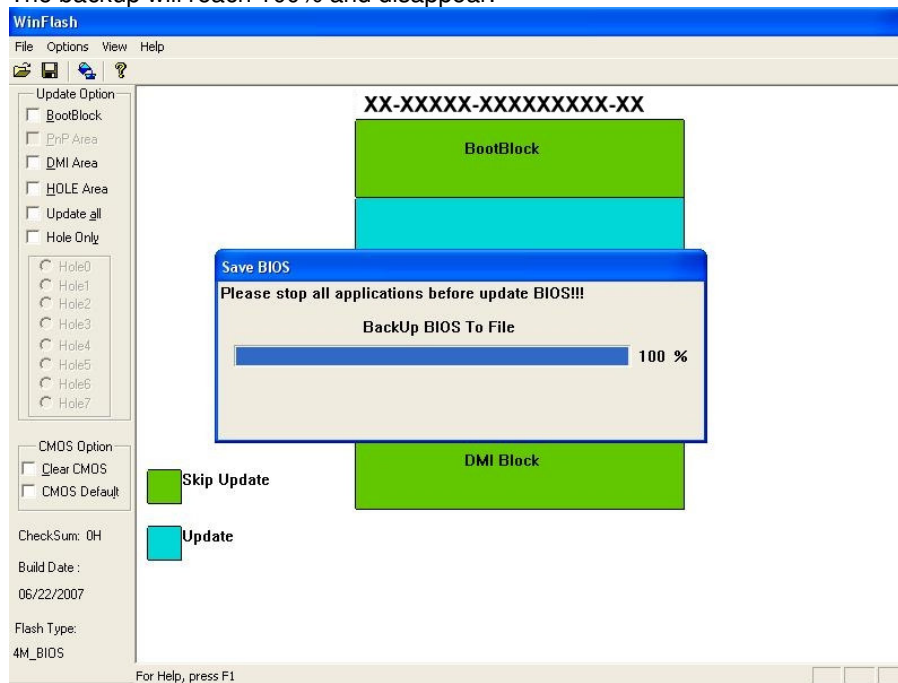

Press "Backup" to start BIOS backup.

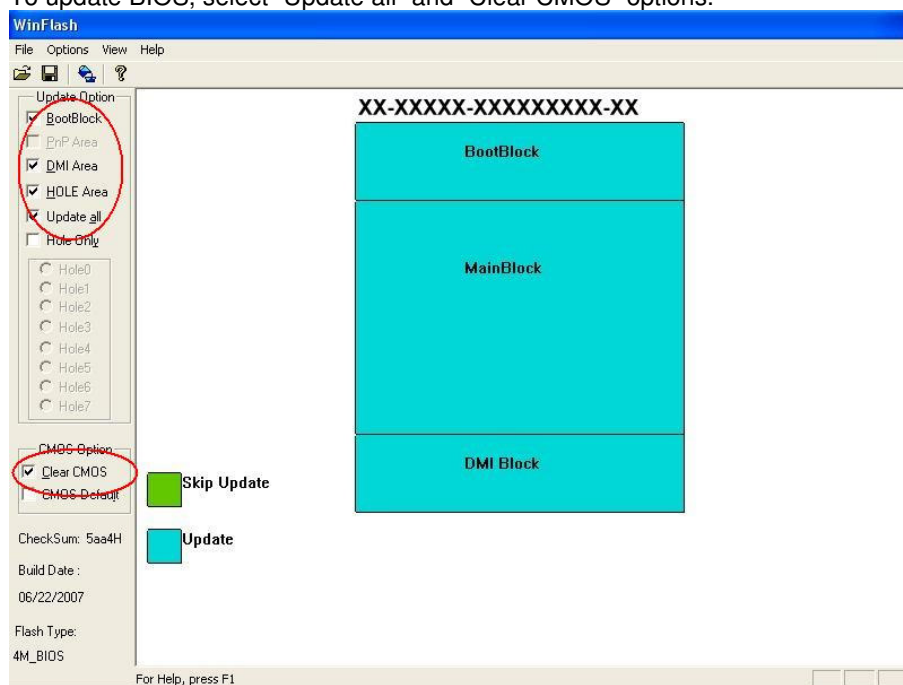

The backup will reach 100% and disappear.

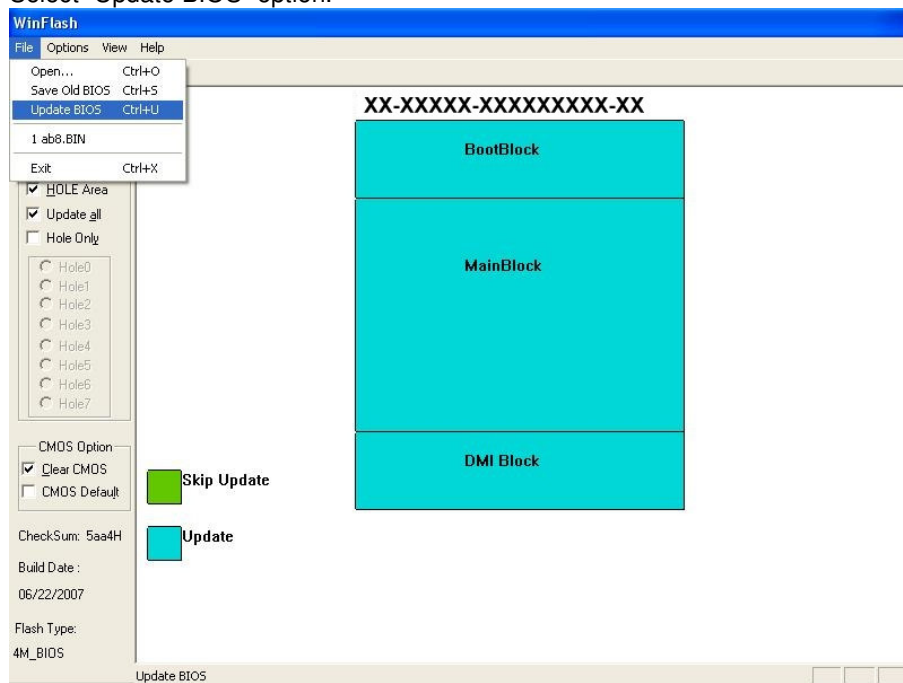

BIOS update

To update BIOS, select "Update all" and "Clear CMOS" options.

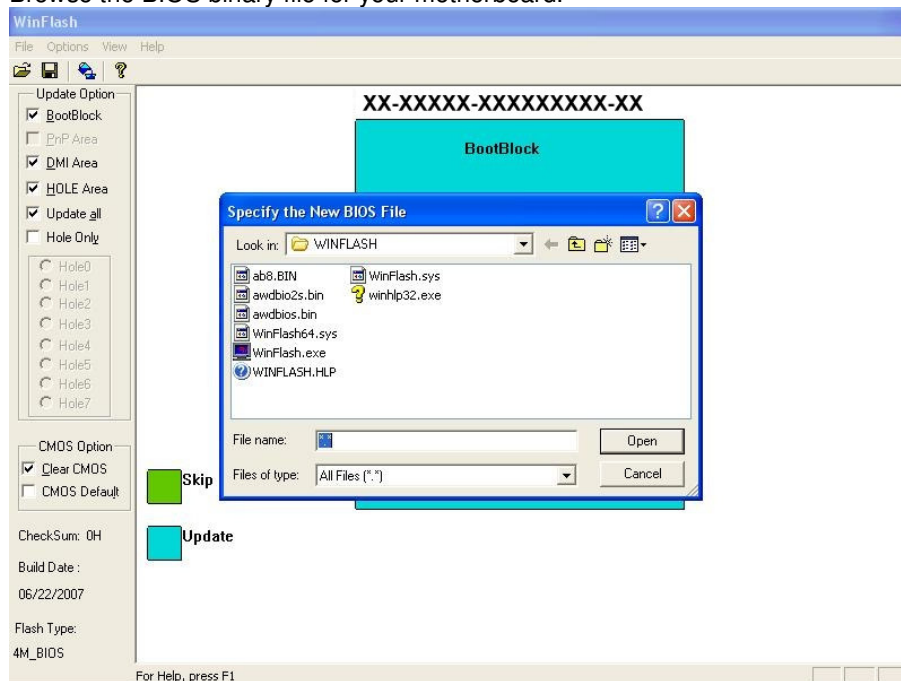

Select "Update BIOS" option.

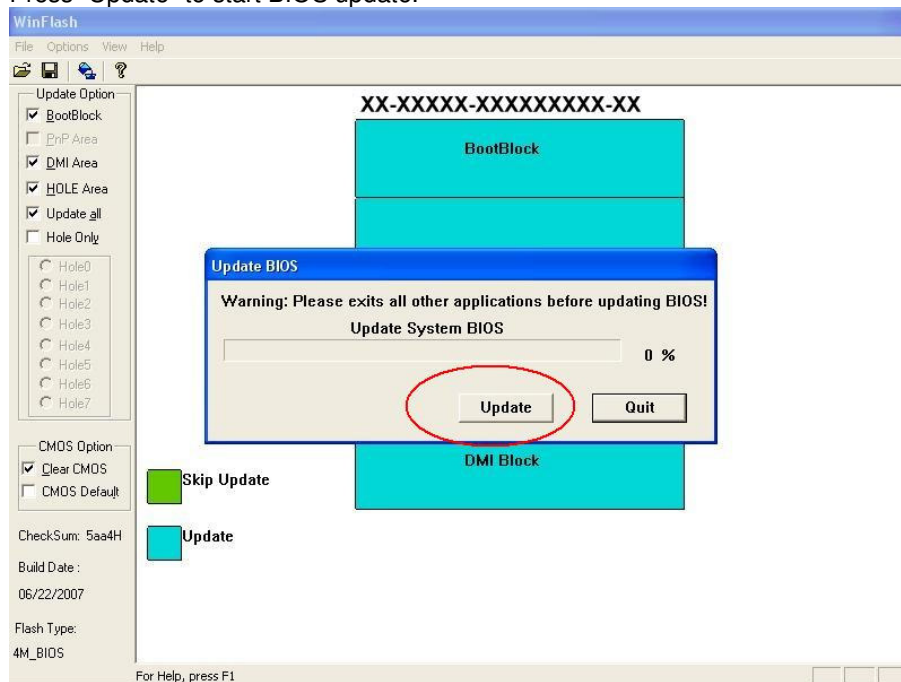

Browse the BIOS binary file for your motherboard.

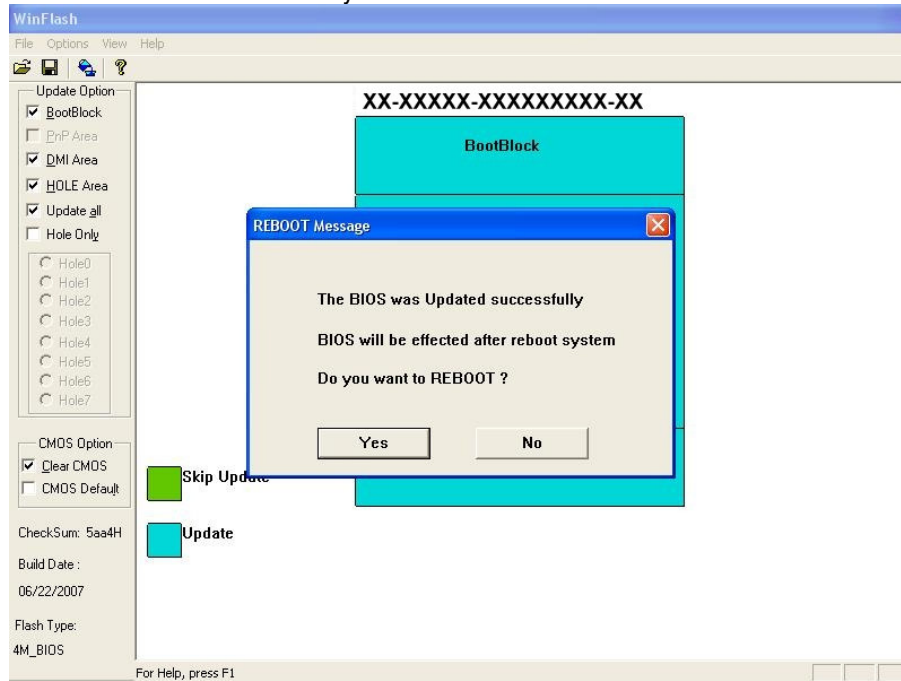

Press "Update" to start BIOS update.

The BIOS update may take several minutes.
The program will appear "The BIOS was Updated successfully" message.
Press "Yes" to REBOOT the system.

When the system restart, Entry the BIOS setup menu.
Re-load and save the Default setup.

~end~
